

On 12th October 2007, AmCham organized a brief meeting on "Investing in Cambodia"

Speaker:

Michael C. Stephen representing Mekong Bank and AmCham Cambodia

Brett Sciaroni representing his firm and AmCham Cambodia

Jean-Boris Roux, representing RM Asia and the French Chamber in Cambodia

David Sim representing PPSEZ (replaced by Carie)

Each speaker gave a brief speech on current situation in Cambodia from Law and Policy perspectives and Investment perspectives. We leave more time on Q & A. There're doubts on Cambodia's law and policy and country's security. Based on past experiences, our speakers gave very positive and promising examples to the audiences. The speech touched on Human resources, transparency of Government channel and private companies to comply with WTO standard. I did a short briefing on PPSEZ. Despite the skeptical view, many audiences were very enthusiastic about our project. I believe more seminar and meeting like this will help our PPSEZ and image changing for Cambodia as well.
